Hi David,

Our priority will always be keeping you safe in your home, so please help us with this by keeping your personal items away from the communal areas. We politely remind you that it is against the terms of the Lease to store any items in the communal areas and cupboards, this is to ensure we are meeting fire safety regulations. In the event of a fire or accident, items left in communal areas are trip hazards, and this could invalidate the insurance cover for the building. Please also refrain from propping open any doors. All communal doors and flat front doors must be self – closing to comply with fire regulations. Thank you for your understanding and cooperation.

If you have any questions, please [click here to Message Us](#).

Many thanks,  
Your FirstPort Team
